Where any restriction is breached, whilst always considering shareholders' best interests, the Investment Manager must ensure that immediate corrective action is taken except where the breach is due to appreciations or depreciations, changes in the exchange rates, or by reason of the receipt of rights, bonuses, benefits in the nature of capital or by reason of any other action affecting every holder of that investment. However, the Investment Manager must have regard to the investment restrictions when considering changes in the investment portfolio of the Fund.

No restrictions shall apply to securities which are issued or guaranteed by a government, governmental agency or instrumentality of a member state of the European Union or Organisation for Economic Co-operation and Development ("OECD") or by any supra-national authority of which a member state of the European Union or OECD is a member. The Company was duly incorporated in Mauritius on 27 October 2014 as a public limited company and was issued a Global Business Licence and authorised on 28 October 2014 by the FSC to operate as a Professional Collective Investment Scheme. Due to the amendment in the law as regards to the minimum holding for a Professional Collective Investment Scheme, the Company has applied for and is now qualified as a Retail Fund (“**Global Scheme**”) under the Securities (Collective Investment Schemes and Closed End Funds) Regulations 2008 made under the Securities Act 2005 of Mauritius.

A Mauritius protected cell company is a single legal entity, and segregated cells have no independent legal personality.

The assets and liabilities of a protected cell company are divided between those which are cellular and those which are non-cellular. Cellular assets and liabilities are those which are attributable to particular cells. Non-cellular assets and liabilities are those belonging to, or owed by, a protected cell company in its own right and not attributable to any of its cells. The recourse available to a creditor of a protected cell company is limited to:

- (b) The cellular assets of the cell in respect of which he has transacted, if he has entered into a transaction attributable to a particular protected cell.

#### **Minimum Holding**

The minimum holding in the Fund at time of the initial investment for Cell Shares shall be determined by the Directors from time to time and included in the relevant Fund Supplement.

The Company will create and issue Cell Shares to prospective Applicants.

The minimum initial stated capital of each Cell shall be as determined under the relevant Fund Supplement and will be applied at the level of each Cell. The number of Cell Shares to be issued for each Cell shall depend on the amount of subscription monies received for such Cell Shares.

The minimum remittance amount for the Cell Shares from each investor shall be determined by the Directors from time to time.

The amount payable on the issue of any Cell Shares of the Company shall be payable in full on issue unless the Directors of the Company shall have decided to accept payment by instalments or calls, whereupon payment shall be made in accordance with such resolutions, and in accordance with the provisions of the Constitution of the Company. The Cellular Shareholder will not be entitled to the full benefit of the holding until such time as the capital is fully paid in. The non-payment of a call on the day appointed for payment thereof shall render the Cell Shares in respect of which the call was made liable to be forfeited.

The Cell Shares shall be issued on a continuous basis as from the date of incorporation of the Company.

The relevant characteristics of each Fund are listed in the Fund Supplement.

No Fund shall be created unless the prior approval of the FSC has been obtained.

### **Subscription**

#### **Eligible Investors**

Each potential investor must represent and warrant to the Company that, amongst other things, such investor is able to acquire Cell Shares without violating applicable Laws or the laws of the country of residence (if different) or if a body corporate; the laws of the jurisdiction in which it is incorporated or established of such investor. The Company will not knowingly offer or sell Cell Shares to any potential investor to whom such offer, or sale would be unlawful, or to any potential investor who, by investing in the Company, would commit a breach of the laws relating to the prevention of money laundering in his jurisdiction of such investor or in Mauritius.

Pursuant to the laws relating to the prevention of money laundering, the Company must ascertain the identity of the potential investor by requiring documents as listed in the “**Application Documents**”. If the said Application Documents have been channelled through a financial intermediary (other than the Distributor), that person shall properly certify the identity as well as the proof of address of the applicant by completing an Eligible Introducer Certificate or in any other manner prescribed by laws.

Such information shall be collected for compliance reasons only and shall not be disclosed to unauthorized persons. In case of refusal by a potential investor to provide the documents required, the application for subscription will not be accepted unless the potential investor has good reasons and produces any such other documentation that will satisfy the customer due diligence standards of the Company.

The Company shall not be bound to register more than four persons as joint holders of any Share. Shares may be transferred to persons under the age of 18.

The Company shall request the Customer Due Diligence documents on every investor.

### **Minimum Subscription and Minimum Holding**

#### **Minimum subscription**

The minimum initial and subsequent subscriptions for investors shall be determined by the Directors from time to time and may be different for different classes of shares.

**Minimum holding**

The Board may from time to time determine the minimum amount in value or number of any holding of Cell Shares.

If a redemption results in a Shareholder's total holding, falling below the minimum amount in value or number the Shareholder's entire holding may be compulsorily redeemed at the Board's discretion.

**Procedure for Application**

Subscriptions for Cell Shares should be made on the Application Documents which should be received and accepted by the CIS Manager 4.00pm Mauritius time in order to receive value for that dealing day at the next available Valuation (the "**Subscription Notice Day**"). If the Application documents are received on a day which is not a Business Day, the Subscription Notice Day shall be the next Business Day.

Settlement may be made by bank transfers into the Company's client monies account by the relevant Settlement Date.

Cleared subscription monies of an applicant must be deposited and reflect in the client monies account on the Settlement Date for processing and allocation of units for the relevant Dealing Day.

If either the Application Documents are received after 4.00pm Mauritius time on the Dealing Day or cleared subscription monies of an applicant are received after the Settlement Date, the investment shall be deferred to the next available Dealing Day at the Subscription Price applicable on that Dealing Day.

**Applications for subscriptions shall be irrevocable.** Applicants shall not therefore be entitled to withdraw subscription once accepted by the CIS Manager.

If settled monies are not received by the required settlement date, trades will not be cancelled, but redeemed on the next available dealing date. The Directors reserve the right to claim any difference between subscription and redemption proceeds from the defaulting investor.

Depending on the rules of each Fund, applicants may be informed in writing by the CIS Manager once their applications have been accepted and their subscription monies received in the relevant subscription monies bank account held by the Company.

Application monies that are received prior to the issue of the Cell Shares or the relevant Settlement Date **will not bear any interest for the benefit of the investor.**

The Company reserves the right to reject any application, in which event subscription monies received by the CIS Manager will be returned to the applicant without interest. Especially, the Company may reject an application for Cell Shares if that will cause a Fund to exceed any limit for subscription of Cell Shares fixed by the Board from time to time.

A sales commission may be payable by the investors to any Broker or Investment Advisor that introduces investors to the Company.

### **Procedure in case of winding up of the Company**

In the event that the Company is wound up before applicants have been issued Cell Shares and before the subscription monies of an applicant have been used by the Company, the claims of such applicant against the Company shall rank *pari passu* with the claims of other unsecured creditors.

If the Company is wound up before the applicant has been issued Cell Shares but after the subscription monies have been used by the Company for investment purposes, the subscription process shall continue, and the sole entitlement of such applicants shall be to the redemption values of Cell Shares issued or deemed to have been issued. The Distribution procedure is provided for in the Constitution of the Company, the Shareholders ranking first on the Distribution list will receive their money on a pro rata basis according to the number of Cell Shares that they have been issued posterior to the subscription process.

### **Redemption**

#### **Redemptions at the option of the Shareholders**

Cell Shares may be redeemed at the option of the Shareholders in accordance with the Constitution provided that such redemption shall not be made during any restricted redemption period except as for such circumstances as detailed hereunder.

Therefore, a first-in first out approach shall be adopted whereby those Cell Shares purchased earliest shall be deemed to have been redeemed first.

All Cell Shares shall be fully paid up before they can be redeemed. The Investment Manager shall not give any credit to potential investors for the subscription of Cell Shares.

#### **Redemption Price**

Cell Shares will be redeemed in the currency denomination of each Fund, being US dollars at the redemption price (the “**Redemption Price**”) calculated in respect of the Dealing Day at which the redemption is sought. The Redemption Price for each Cell Share is calculated in accordance with the same formulae used to calculate the subscription price.

#### **Redemption Proceeds**

The redemption proceeds will be paid in the currency denomination of each Fund and share class by way of bank transfers. Redemption proceeds shall be paid, subject to the Company satisfying the solvency test as defined under the Companies Act 2001 of Mauritius, as amended from time to time and there being sufficient liquidity in the Fund on the relevant Settlement Date upon which the redemption price applicable at the relevant Valuation Day has been determined. As from the date on which a Shareholder’s Cell Share are redeemed, the former Shareholder shall rank as an unsecured creditor of the Company for the sum payable as redemption proceeds with respect to that Fund until such time as the redemption proceeds is debited from the redemption bank account held by the Company.

**Redemption Procedures**

Subject to the provisions of the Constitution, the CIS Manager shall, on receipt of a redemption request by a Shareholder, redeem all or part of the Cell Shares subject to any minimum holding as determined by the Board from time to time.

Redemption requests to redeem Cell Shares must be received and accepted by the CIS Manager by 4.00 p.m. Mauritius time. If the redemption request is received on a day which is not a Business Day; the Redemption Day shall be the next Business Day. Redemption requests received after the specified 4.00pm Mauritius time cut off above shall be deferred until the following Dealing Day and the subsequent the Redemption Price applicable.

A redemption request will not be treated as valid unless it is in respect of Cell Shares for which the Subscription Price has been fully paid.

Redemption requests will be irrevocable except in the event of a suspension of redemption.

The Company's obligation to redeem Cell Shares is subject to postponement in the event that requests for redemptions received in respect of any one Dealing Day represents more than 5% of the issued Cell Shares of the relevant Fund or to the extent that there is insufficient liquidity to pay the redemption proceeds within one business day of the redemption request being received. In such an event, the Company shall not be under the obligation to redeem Cell Shares representing more than 5% of the Cell Shares in issue in respect of the relevant Fund or other amount should there be insufficient liquidity as mentioned above and, the Company may reduce all but not some of such redemption requests pro rata so that they cover no more than the relevant percentage of the Cell Shares issued or to the extent that such Fund's liquidity allows.

Any part of a redemption request to which remains unexecuted by reason of the exercise of this power by the Company shall be treated as if the request had been made in respect of the next Dealing Day and all following Dealing Days (in relation to which the Company has the same power) until the original request has been satisfied in full. Where requests for redemption are postponed as envisaged above, the CIS Manager will cause to be liquidated a sufficient portion of the relevant Fund's assets in order that the Company's obligation to pay the redemption proceeds is met in a reasonable time frame.

**Compulsory Redemption**

If the Board in their absolute discretion consider that any Cell Shares that have been acquired or owned or held directly or indirectly by any Shareholder in circumstances which, in their opinion, might result in the Company incurring any liability to taxation or suffering any other pecuniary disadvantage which the Company might not otherwise have incurred, the Board may require the redemption or transfer of such Shares.

To require the redemption or transfer of Cell Shares in the Company, the Board will serve on the Shareholder a notice requiring him to transfer his Cell Shares to a Shareholder eligible to hold the same or to give a redemption request in respect of such Cell Shares. If any such Shareholder upon whom such a notice is served as aforesaid does not, within 30 days after such notice, transfer such Cell Shares or give a redemption request in respect thereof, he shall be deemed forthwith upon the expiration of such 30-day period to have given a redemption request in respect of all his Cell Shares and the Board shall be entitled to appoint any person to sign on his behalf such documents as may be required for the purposes of the redemption.

If any Cell Shares are compulsorily redeemed pursuant to this Section, the Board shall deposit in a separate bank account the redemption proceeds. Upon such deposit, the Shareholder whose Cell Shares have been so redeemed shall have no interest in or claim against the Company or its assets except the right to receive the redemption proceeds deposited (without interest) upon surrender of any document(s) that are required for the purposes of redemption or settlement.

**(a) Redemption due to ineligibility**

Cell Shares in the Company may not be offered, sold or held by or for the benefit of any Shareholder in any jurisdiction:

- (i) in which authorization for such offer or solicitation is required but is not obtained; or
- (ii) in which the Shareholder making such offer or solicitation is not qualified under the laws and regulations of that country to do so; or
- (iii) to any person to whom it is unlawful to make such offer or solicitation.

Further ownership restrictions may become necessary to reflect changes in the applicable Laws and regulations of any other jurisdiction whose laws may be applicable to the Company.

The Broker, in the first instance, and, by default, the Investment Manager have the exclusive right to determine conclusively whether any Shareholder or entity is an ineligible investor and any such determination may be made at any time. If it is determined that Cell Shares are beneficially owned by a Shareholder who is not eligible, either alone or in conjunction with any other Shareholder, the Company will, redeem such Cell Shares held by that Shareholder alone or in conjunction with any other Shareholder in the Funds at the relevant Redemption Price.

**(b) Redemption in the interests of Shareholders**

Where, as a result of any enactment, legislation or otherwise, the Board consider it advisable or prudent in the interests of Shareholders to redeem the Cell Shares as a result of any enactment, legislation or otherwise, the Company may, in any such case, at its option, cause all Cell Shares then outstanding to be redeemed, by giving 4 weeks' notice to all Shareholders. The redemption will be effected on such Dealing Day as specified in such notice.

**(c) Redemption for Closure**

The Board may decide to close a Fund if such solution is in the best interest of existing Shareholders in the Company. If such a situation occurs, the Board may compulsorily redeem or transfer the outstanding Cell Shares in the Fund. To require such redemption or transfer, the Board will serve on the Shareholders a notice requiring them to transfer their Cell Shares into another Fund or to give redemption requests in respect of such Cell Shares. If the notified Shareholders do not, within 30 days after such notice, transfer their Cell Shares or provide redemption requests in respect thereof, the Shareholders shall be deemed forthwith upon the expiration of such 30 days period to have given proper redemption requests in respect of all their Cell Shares and the Board shall be entitled to appoint any Person to sign on their behalf such documents as may be required for the purposes of such redemptions.

As provided for above, the redemption proceeds of such compulsory redemption will be retained in the redemption account of the Company until the Shareholders concerned have surrendered such documents required for the purposes of redemption or settlement.

### **Temporary Suspension of Redemption**

The Board or any nominated person are empowered, subject to all relevant regulatory approval, including the approval of the FSC, to temporarily suspend the issue or redemption of Cell Shares at any time for a period not exceeding 30 days and may do so if they have good and sufficient reason to believe that it is in the interests of the Shareholders. This may include that occurrence of any of the following events:

- (i) when one or more stock exchanges or other markets which provide the basis for valuing any assets of the Fund are closed other than for or during holidays, or if dealings therein are restricted or suspended or where trading is restricted or suspended in respect of securities forming a substantial part of the Fund's assets;
- (ii) when, as a result of political, economic, military or monetary events or any circumstances outside the control, responsibility and power of the Company, disposal of the assets of the Fund is not reasonably practicable without this being seriously detrimental to the interests of Shareholders, or if, in the opinion of the Board, a fair price cannot be calculated for the assets of the Fund;
- (iii) in the case of a breakdown of the means of communication normally used for the valuing of any asset of the Fund or if for any reason the value of any asset of the Fund which is material in relation to the Net Asset Value may not be determined as rapidly and accurately as required; or
- (iv) if, as a result of exchange restrictions or other restrictions affecting the transfer of funds, transactions on behalf of the Fund are rendered impracticable, or if purchases, sales, deposits and withdrawals of any assets of the Fund cannot be effected at the normal rates of exchange, as determined by the Board.
- (v) No issue or redemption of Cell Shares in the Fund will take place during any period when the calculation of the Net Asset Value is suspended. Payment of redemption proceeds to such Shareholders whose Cell Shares have been redeemed may be withheld prior to such suspension until after the suspension is lifted, such right to be exercised in circumstances where the Board believe that to make such payment during the period of suspension would materially and adversely affect and prejudice the interests of the remaining Shareholders in the Fund affected by the suspension.

### **Subscription and Redemption Prices**

The subscription price and redemption price for Cell Shares will not differ in value and will be available after midday Mauritius time the day after Valuation Day.

### **Anti-money Laundering**

To ensure compliance with the Financial Intelligence and Anti-Money Laundering Act of 2002 ("FIAMLA"), the Financial Intelligence and Anti-Money Laundering Regulations 2018 ("FIAML

**Regulations 2018**”) and the AML/CFT Handbook issued by the FSC, Shareholders of the Fund will be required to provide certain information / documents for the purpose of verifying the identity of the shareholders and the source of funds and obtain confirmation that the application monies do not represent, directly or indirectly, the proceeds of any crime. The extent of the request for information may be reduced where such shareholder is a regulated financial services business based in Mauritius or in an equivalent jurisdiction (i.e. subject to the supervision of a public authority and to equivalent anti-money laundering legislation) or in the case of public companies listed on recognized stock / investment exchanges.

Shareholders should note specifically that additional information as may be necessary to verify the identity of the investor and the owner of the account to which the redemption proceeds will be paid may be requested. Redemption proceeds will not be paid to a third-party account without the identities of those third parties being confirmed in accordance with the Company’s compliance manual.

Each shareholder acknowledges that the Fund and / or the CIS Manager shall be held harmless against loss arising as a result of a failure to process an application for shares or redemption request if such information and documentation as requested by the Fund and / or the CIS Manager has not been provided by such shareholder.

## **6. FEES AND EXPENSES**

### **Performance Fees**

The Company may, in future, charge performance fees to the investor based on the growth of the Net Asset Value per Cell Share, and the details regarding the performance fees shall be disclosed to investors and prospective investors. Such performance fees shall be paid to the CIS Manager or its delegate. Details of the performance fees in relation to each Fund shall be set out in the relevant Fund Supplement.

### **Management Fees**

The Company Secretary will also be reimbursed for all reasonable out-of-pocket expenses agreed to in advance with the Fund.

**Administration Fees**

The CIS Manager will also receive a fee for the administration of each Fund. This fee will be paid monthly in arrears at such rate as may be agreed between the CIS Manager and the Company from time to time. The CIS Manager will also be reimbursed for all reasonable out-of-pocket expenses agreed to in advance with the General Administrator and the Company.

**Custodian**

**Other Fees Relevant to Administering and Managing the Scheme**

Fees relevant to managing and administering the scheme and each fund will be disclosed in each Fund Offer Document.

**7. RISK FACTORS**

The value of each Fund of the Company is subject to market fluctuations and to the risks inherent in all investments and markets. As a result, the price of Cell Shares may go down as well as up.

**General Risk Factors**

Prospective investors should be aware that the value of the Cell Shares and the return derived from them can fluctuate. The same applies to the securities in which a Fund will invest. In addition, there can be no assurance that a Fund will achieve its investment objectives. The past performance of the Investment Manager or of the principals of the Investment Manager may not be construed as an indication of the future results of an investment in a Fund.

**Political & Economic Risks**

The Net Asset Value of the Fund may be affected by uncertainties such as political or diplomatic developments, social and religious instability, changes in government policies, taxation and interest rates and other political and economic developments in law or regulations and, in particular, the risk of, and change in, legislation relating to the level of foreign ownership.

**Repatriation of Capital, Dividends, Interest and Other Income Risks**

It may not be possible for the Company to repatriate capital, dividends, interest and other income from emerging market countries, or it may require government consent to do so. A Fund could be adversely affected by the introduction of the requirement for any such consent, or delays in or the failure to grant any such consent, for the repatriation of funds or by any official intervention affecting the process of settlement of transactions which may in turn affect the repatriation of funds. Economic or political conditions could lead to the revocation or variation of consent granted prior to investment being made in any particular country or to the imposition of new restrictions.

**Settlement, Clearing and Registration Risks**

Some of the countries in which a Fund may invest may be undergoing rapid expansion. There can be no guarantee of the operation or performance of settlement, clearing and registration of transactions in some of these markets. Where organised securities markets and banking and telecommunications systems are underdeveloped, concerns inevitably arise in relation to settlement, clearing and registration of transactions in securities where these are acquired other than as direct investments.

Furthermore, due to the local postal and banking systems in many less developed markets, no guarantee can be given that all entitlements attaching to quoted and over-the-counter traded securities acquired by a sub-fund, including those related to dividends, can be realised. Some markets currently dictate that monies for settlement be received by a local broker a number of days in advance of settlement, and that assets are not transferred until a number of days after settlement. This exposes the assets in question to risks arising from acts, omissions, and solvency of the broker and counterparty risk for that period of time.

**Market Risk**

Financial markets are increasingly more volatile. Wide swings in market prices that have been a feature of smaller and less developed markets are also becoming common in major financial markets. In many instances, market prices defy rational analysis or expectation for prolonged periods of time and are influenced by movements of large funds as a result of short-term factors, counter-speculative measures or other reasons. Market volatility of large enough magnitude can sometimes weaken what is deemed to be a sound fundamental basis for investing in a particular market. Investment expectations may therefore fail to be realised in such instances too.

**Investment in Publicly Traded Securities**

Some of the markets in which a Fund may invest are emerging markets, and as a consequence tend to be substantially smaller, less liquid, less regulated and more volatile than major securities markets, such as those in more developed economies. The limited liquidity of securities in some emerging countries could also affect the ability of a Fund to acquire or dispose of securities at the price and at the time it wishes to do so.

**Inflation**

Some of the countries in the world in which a Fund may invest have experienced extremely high rates of inflation for many years. Inflation and rapid fluctuations in inflation rates have had and may continue to have negative effects on the economies and securities markets of certain

emerging countries. Depending on rates of inflation in countries in which a Fund invests, this factor could affect the performance of a Fund.

### **Financial Disclosure**

Substantially less information may be available about some issuers in other parts of the world as compared to issuers in developed countries. Accounting, auditing and financial reporting standards in some countries are not necessarily equivalent to standards applicable in developed countries. As a result, the disclosure of certain material information may not be made, and less information may be available than would be the case if the investments of a Fund were, for example, restricted to investments in developed countries.

### **Counterparty Risk**

The Company will transact most of the investments made by its Funds through financial institutions including but not limited to brokers, dealers and banks. All purchases and sales of securities will carry counterparty risks until the transactions have settled. All financing transactions such as borrowing, or lending of funds or securities will carry counterparty risks until such borrowing or lending has terminated and the relevant collateral is returned. All deposits of securities or cash with a custodian, bank or financial institution will carry counterparty risk. Upon default by a counterparty, a Fund may be forced to unwind certain transactions, and that Fund may encounter delays and difficulties with respect to court procedures in seeking recovery of its assets.

### **Exchange Control and Currency Risk**

The assets of a Fund may be invested in securities denominated in currencies other than US Dollars and any income received by that Fund from those investments will be received in those currencies, some of which may fall in value against the US Dollar. The Net Asset Value will be computed in US Dollars and there is therefore a currency exchange risk which may affect the value of the Cell Shares to the extent that a Fund makes such investments. A Fund may from time to time invest its assets in countries which have exchange control restrictions, and that Fund may encounter difficulties or delay in relation to the receipt of its divestments due to such controls existing in various countries.

### **Geographic Focus Risks**

The concentration of investments in a specific geographical region involves a higher degree of regional risk, which is the risk that the entire region will be adversely affected by factors such as political instability, financial crises, pandemic, epidemic and natural disasters. Heavy exposure to the stock markets of a specific geographical region exposes a Fund to increased market risk as compared to more geographically diversified international funds.

### **Leverage**

As part of its investment strategies, a Fund may utilise leverage such as trading on margin. Leverage has the effect of magnifying changes in the value of the portfolio and creates opportunities for greater total returns. However, at times of adverse price movements, the portfolio may incur substantial losses. Furthermore, if the assets of the portfolio pledged to secure the borrowings decline in value, a Fund may have to liquidate some or all of its assets to meet the collateral requirements at times and at prices that are disadvantageous to that Fund.

**Reliance on the Manager**

Holders of Cell Shares have no right to participate in the management of the Company or of a particular Fund or to make any decisions with respect to the investments to be made by any Fund. Consequently, they must rely on the Manager with respect to the management and investment decisions. In the event that the Manager cannot manage the Company, which might occur, for example, upon bankruptcy or dissolution, the Company may have to be dissolved. In such case, it might not be possible to realize the full value of the investments of each Fund.

**Potential Conflicts of Interest**

The Investment Manager has agreed that it will not, nor will any of its connected persons, transact with a Fund, as beneficial owner on the sale or purchase of investments to or from a Fund, except on a basis approved by the Custodian from time to time, or without the consent of the Directors and the Custodian otherwise transact with a Fund as principal.

The Custodian or its connected persons may contract with or enter into any financial banking or other transaction with the Company or any Shareholder or any company or body, any of the assets of which are held by or for the account of a Fund and the Custodian or its connected persons shall not be liable to account to any person for any profits or benefits made or derived by them in connection with any such transaction. The Custodian or any of its connected persons may not as principal sell investments to a Fund or purchase investments from a Fund.

The services of the Investment Manager, Custodian and their connected persons are not exclusive, and each such party is free to render similar services to others so long as the services to be performed by it are not impaired thereby and to retain for its own use and benefit all fees of monies payable thereby.

In the event of any conflict of interest arising as a result of such dealing by the Custodian or the Investment Manager in the Fund, the Investment Manager and the Custodian, following prior consultation with each other, will resolve any such conflict in a just and equitable manner as they deem fit.

The Investment Manager and the Custodian will conduct all transactions for the Fund on an arm's length basis.

Associates of the Custodian may be engaged to offer financial, banking and brokerage services to the Fund, but these services will be provided on an arm's length basis.

Where the Company receives interest, the 80% partial exemption will be granted, provided the Company carries out its core income generating activities in Mauritius; employs directly or indirectly an adequate number of suitably qualified persons to conduct its core income generating activities in Mauritius; and incurs a minimum expenditure proportionate to its level of activities. As per Income Tax Regulations 1996, "the 'core income generating activities' includes agreeing funding terms, setting the terms and duration of any financing, monitoring and revising any agreements, and managing any risks."

The conditions to benefit from the partial exemption are that the Company should carry out its core income generating activities in Mauritius, employ directly or indirectly, an adequate number of suitably qualified persons to conduct its core income generating activities and incur a minimum expenditure proportionate to its level of activities.

The core income generating activities of a Collective Investment Scheme is defined as investments of funds in portfolio of securities, or other financial assets, real property or non-financial assets; diversification of risks; redemption on the request of the holder.

Any gains derived by a Collective Investment Scheme (CIS) on the realisation of any investments of the scheme shall be deemed not to be income derived by the scheme provided that at least 70% of the gains is not distributed as income to the participants in the scheme; is appropriated to meet realized losses; or is applied towards a capital purpose only.

Any distribution to a participant in the scheme out of the net income derived by the Collective Investment Schemes shall be deemed to be a dividend to a participant.

Further, the Company will be exempted from income tax in Mauritius on profits or gains arising from disposition of investments held by the Company. There is no withholding tax payable in Mauritius in respect of payments of dividends to Investors or in respect of redemption or exchange of shares.
